It appeared in the 10 June 1956 issue of Current Affairs (Jen-Min Shou-tse). SUBJECT :

Function of the National Technological Commission

REFERENCE :

Our Memo dated 28 November 1956
Your Memo dated 14 January 1957

1. Thank you for your views on the functions of the National Technological Commission in China. [REDACTED] agrees with your conclusions that available information does not support the inference that investment and production planning are functions of this Commission.

2. The translation cited in paragraph 3 of your memorandum under reference appears to be the same source used by the [REDACTED] as the basis for its [REDACTED] translator appears to have missed the words "Hereafter, the State Planning Commission..." at the start of the second sentence, since they assign the functions of that commission to the National Economic Commission. I wonder if we could have the source citation for the quoted piece in order to query [REDACTED] on this point.
